OPEN SOURCE VS MANAGED

Everything is open source. The $402 buys our time configuring it for you.

	FREE	MANAGED
Source code	Clone from GitHub	Pre-configured
Cloud hosting	Find your own server	Always-on, 1st month free
SPV headers	Sync yourself	Synced and verified
Token mining	Run indexer yourself	Mining from day one
Domain + token	Inscribe yourself (0% fee)	Done for you
Identity + payments	Wire it up yourself	Configured and live
App forks	Fork and deploy yourself	Your tokens, deployed
Support	Community / docs	Walkthrough call + 30 days

Stay Hosted
$1/day

Keep running. Cancel anytime.

Self-Host
Free forever

Docker images + config. Your hardware.

Walk Away
Yours on-chain

Tokens, identity, inscriptions stay on BSV.

Send $402

BSV to **$B0ASE** or **$bcorp**. GBP/USD by bank transfer or payment link. We start building the moment it lands.

Free .online domain of your choice included

TERMS

SUBSCRIPTION

$1/day for 365 days plus a $402 Miner (Android hardware device). Includes cloud hosting, token mining, identity verification (opt-in KYC via Veriff), payment endpoint, domain inscription, app forks, and VPN mesh. After year 1: $1/day to stay hosted, or self-host free forever.

KYC

Identity verification via Veriff is included at no extra cost. It is entirely opt-in. KYC unlocks dividend eligibility and future $403 conditional features. You control your identity data.

MINING

Your b0x mines $402 tokens by indexing overlay network transactions. Rewards depend on network conditions. No guaranteed return. You keep 100% of mined tokens.

CANCELLATION

Cancel anytime. No refunds after 7 days. Earned $402 tokens and on-chain assets remain yours permanently.

DEVICE

$402 Miner (Android device) shipped within 30 days of subscription. Device is yours to keep regardless of subscription status.
